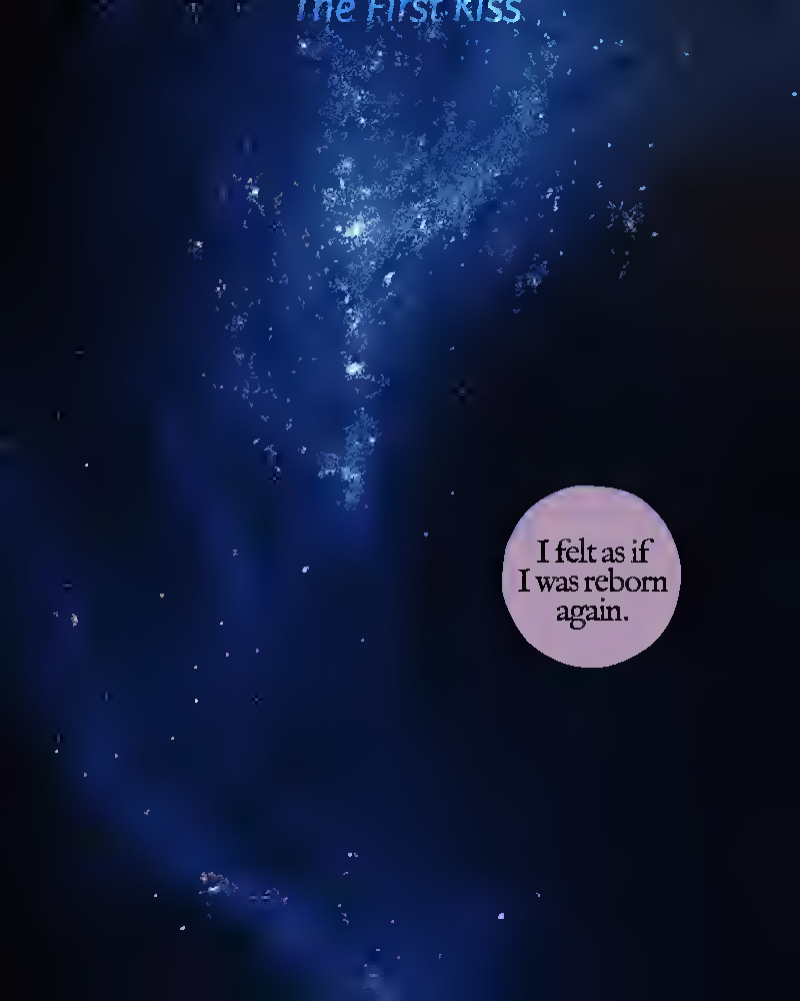
HELIOS:FEMINA



I felt as if
I was reborn
again.

Reborn as Aurella Oriana.
Bebo trained me till we lost track of time.

Then, the moment I became a light warrior,
...was the moment I woke up.

Ahem,

I know it's getting pretty late, so I...
There's more, *right*?
What else did you do?
What happened to Arret, and Zuka?

HOW CAN YOU FLY?!

What about Zeru?

Zeru?

...
A catachysmic event took place on the entire planet.
One of Zeru's two moons was destroyed by an unknown, but powerful super civilization.
Why?

No one knows.
Not even Bebo.

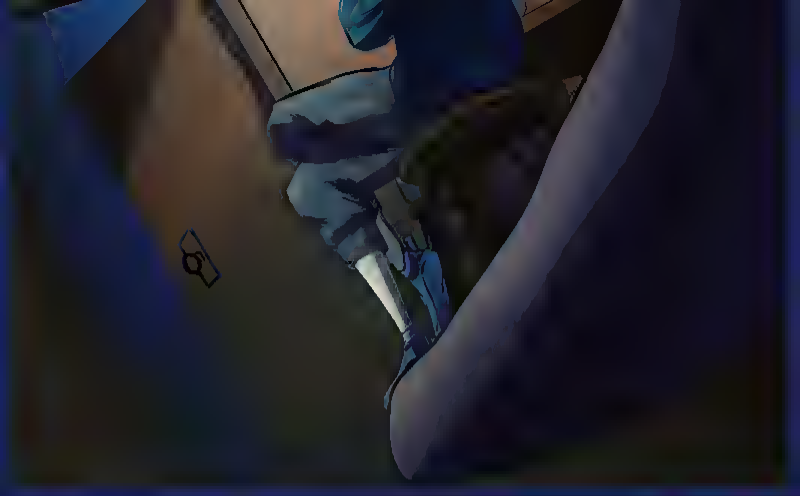
I'm sorry everyone.
Please excuse me.
I'm going to get some fresh air.

I'll be back.

Give her some space,
she's been through a lot.

Shouldn't *someone* check in on her?
Well?

Are you going to just stand there?
Or should I go?



It's not turning on.
If I concentrate,

vrrrmmmm
...maybe I can power it up.

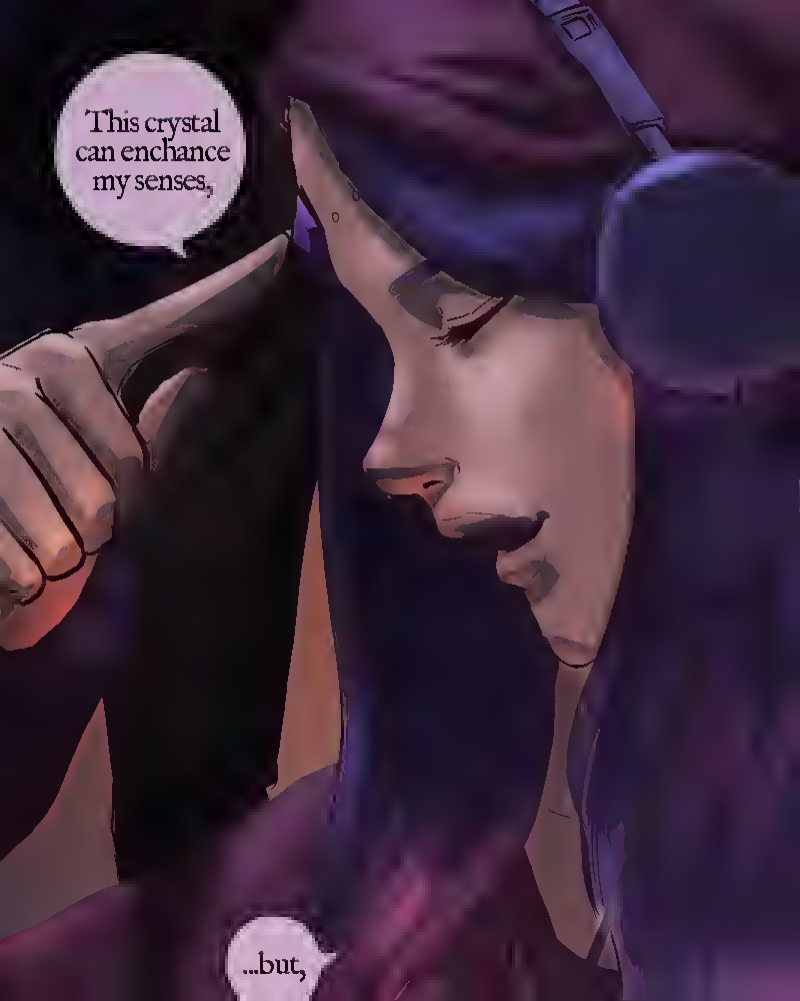
I may not hear you,
...but I can feel you Kazu.

How,
...did you know?



This crystal can enchance my senses,
...but,

...I'm still no mind reader,
...so you'll have to help me out, from time to time

I can see why you like it up here.

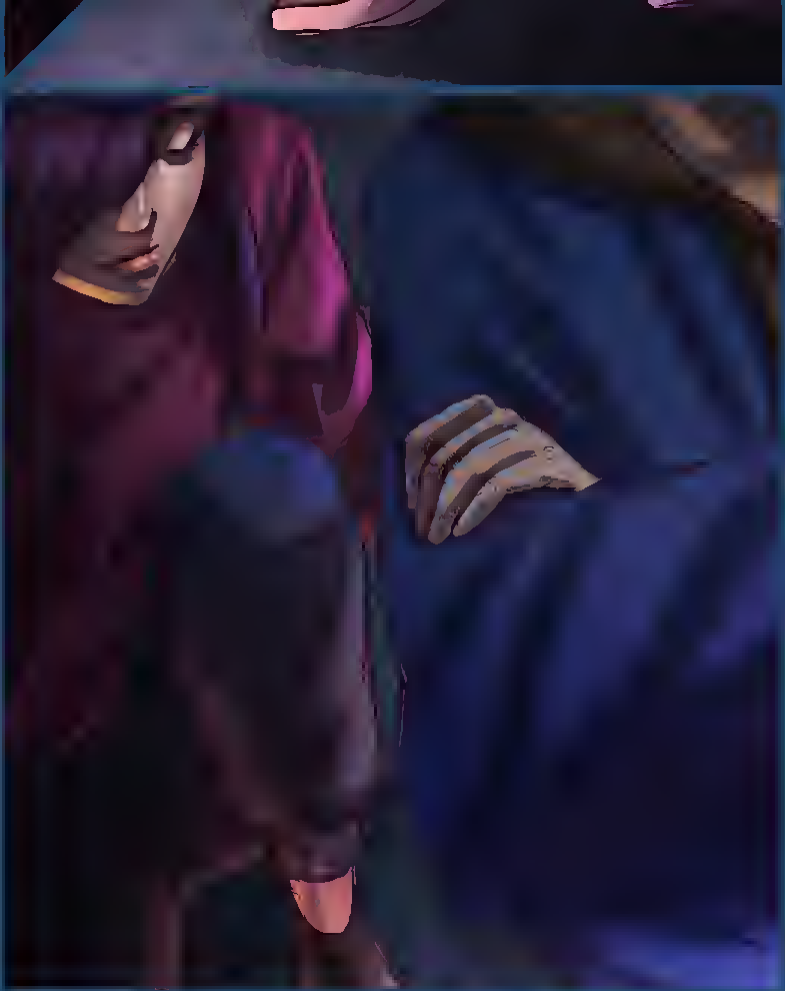
It's quite nice.
Yes, and quiet.

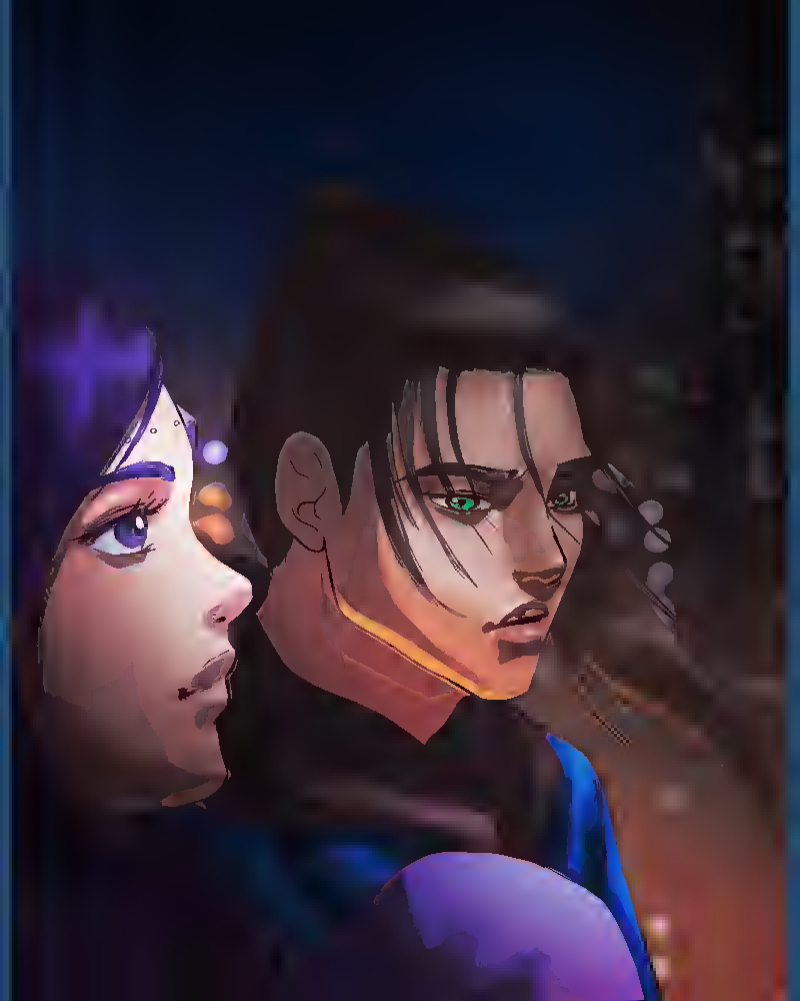
I'm usually alone up here—
FSHHHHHHHH
I

understand.
You prefer your own company

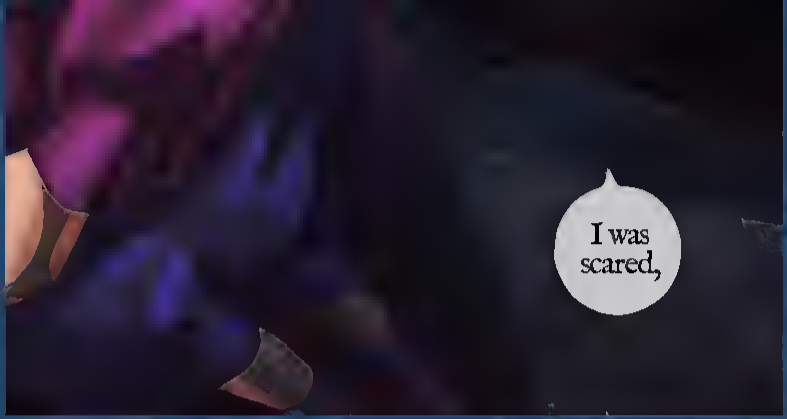
I...

...prefer, the right company.



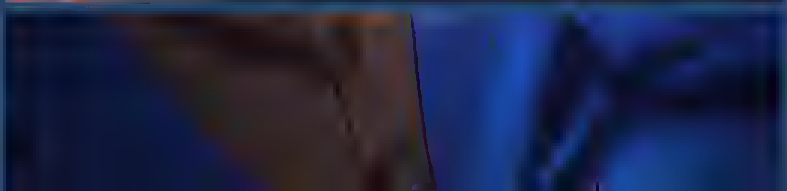


Rhea, back on the bridge,
...after Terra fell,

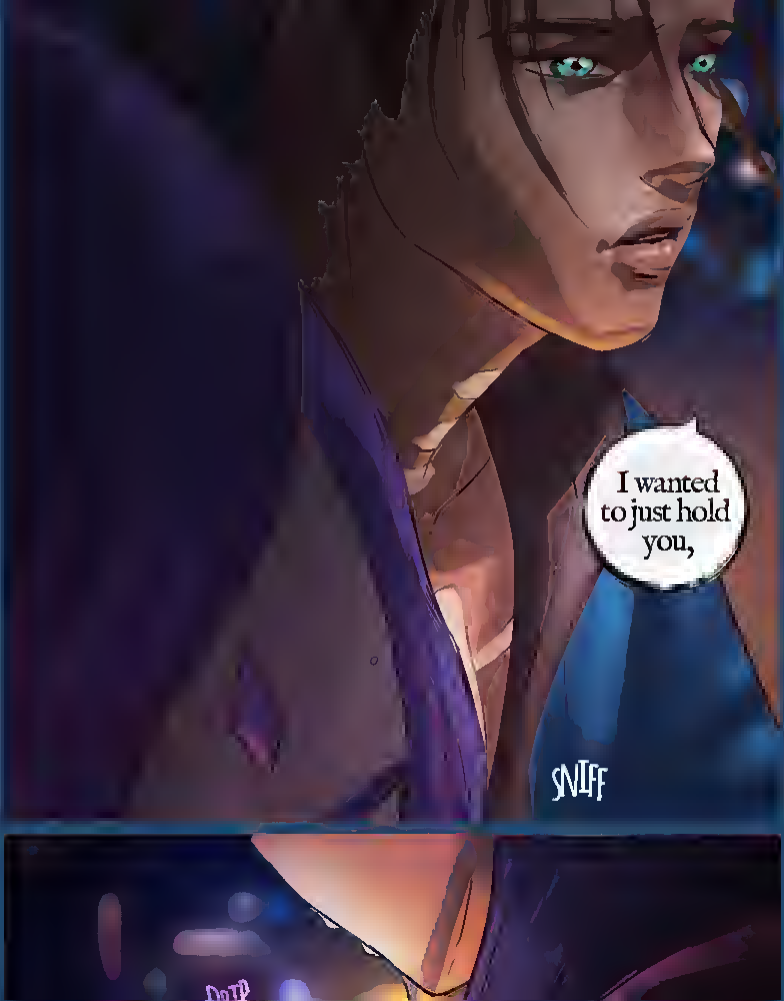


I was scared,

...for you.

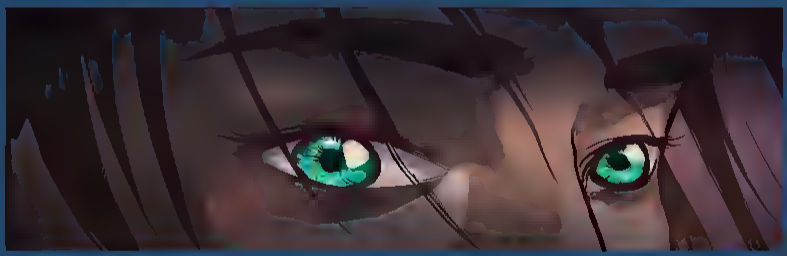


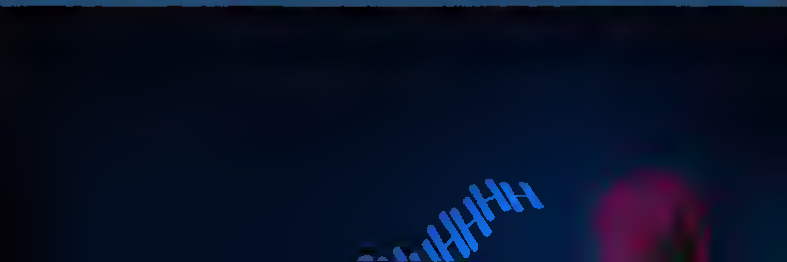
I didn't know what to do.
I felt so helpless.



I wanted to just hold you,
SNIFF

SNIFF

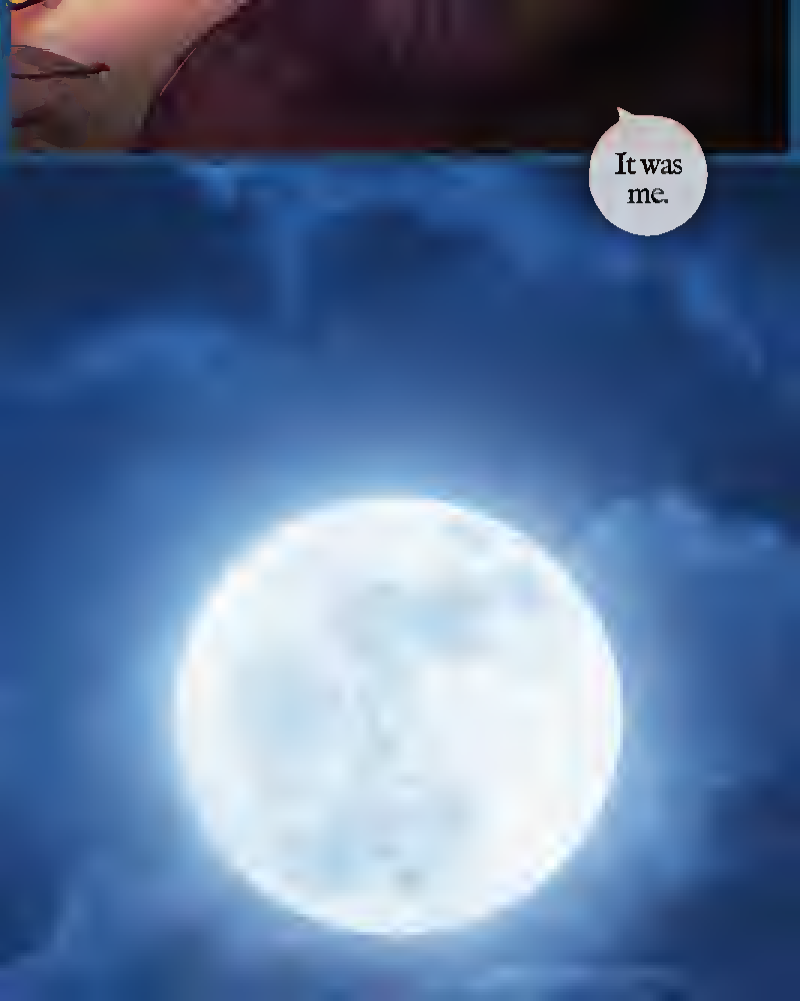




HHHHH

FSHA

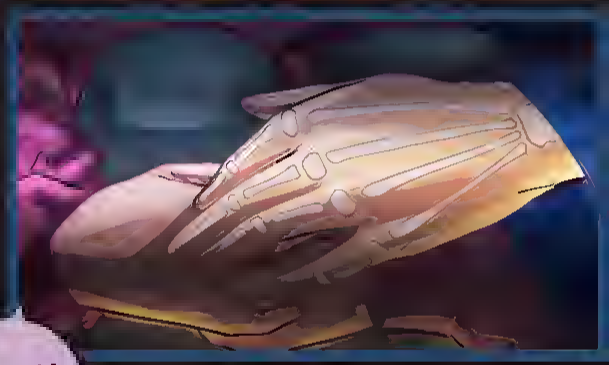
...but you weren't the one who needed to be saved.



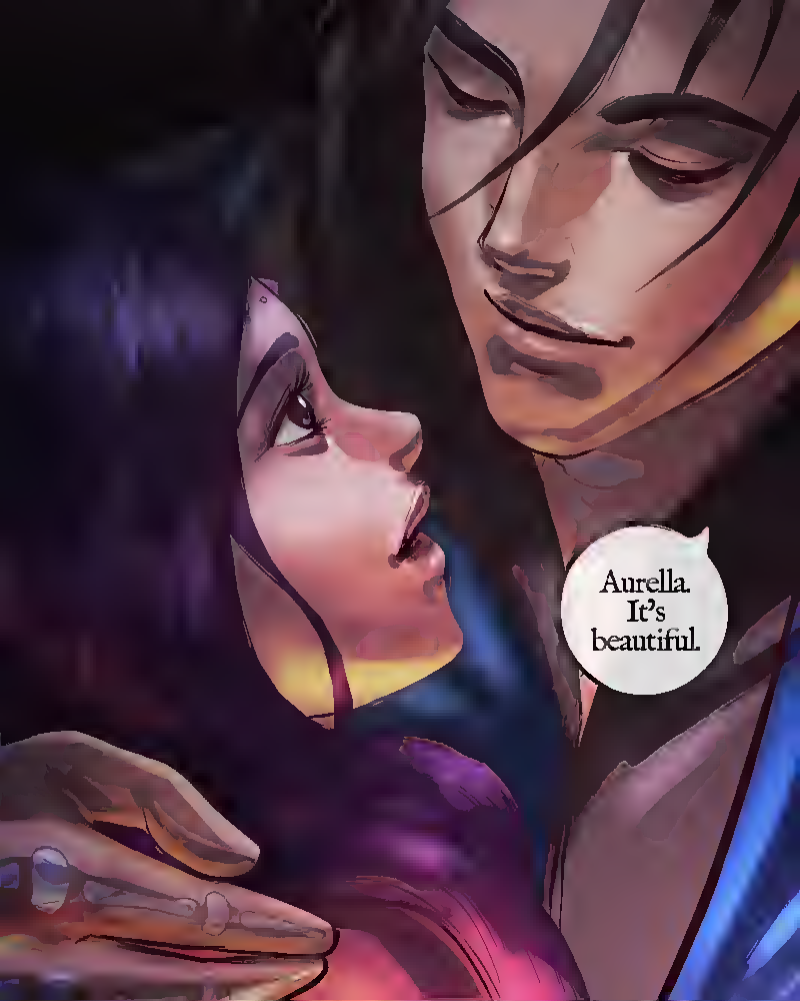
It was me.

It was us
Kazu.

Thank you, Aurella.
My name.



You said my real name.



Aurella.
It's
beautiful.

You're beautiful too you know?

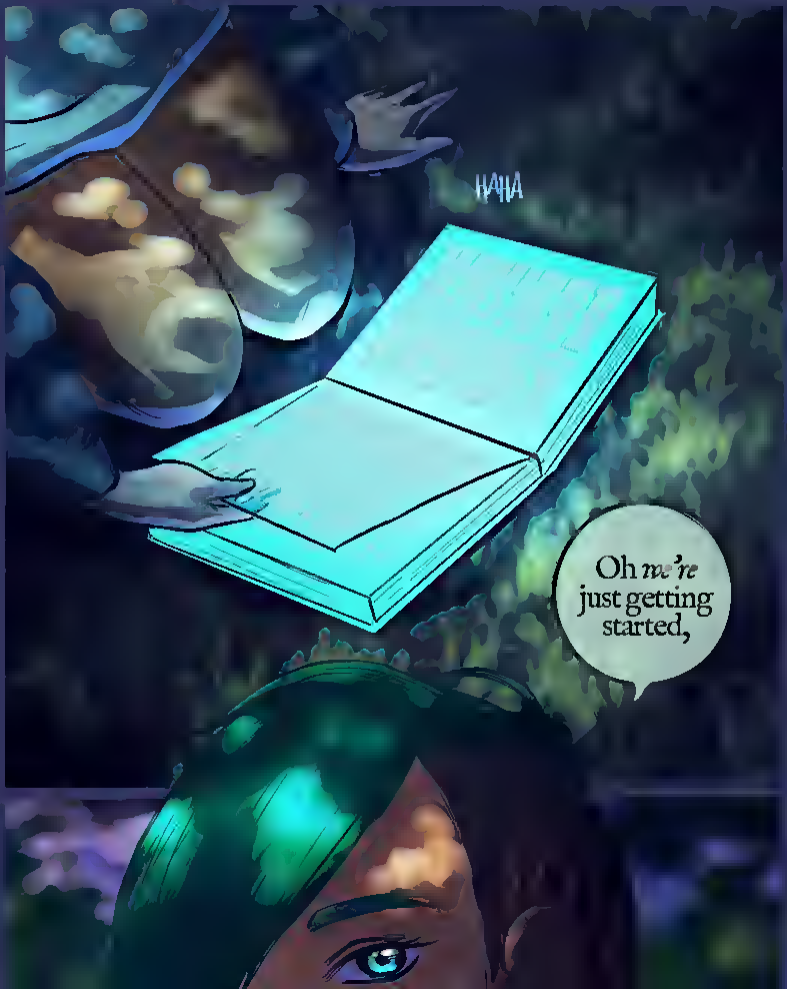
BRUSH
WIPES

My tattoos don't scare you?
No.

Do *I* scare you?

Yes.

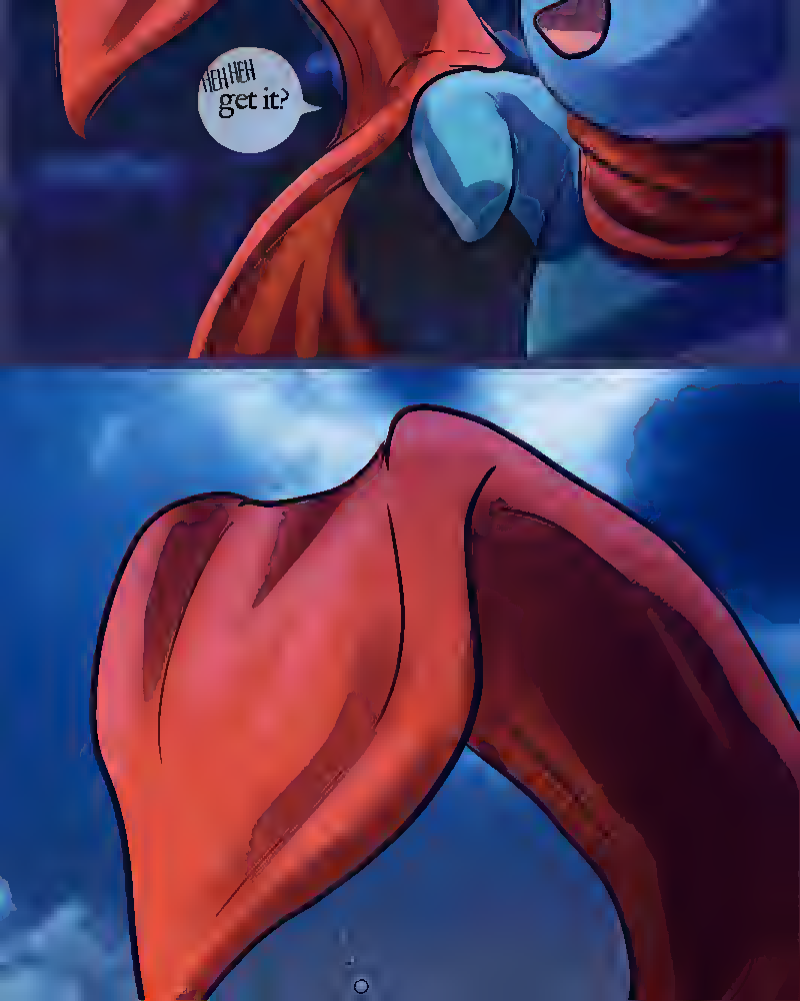
Terra, this is incredible.



HAHA
Oh *we're* just getting started,

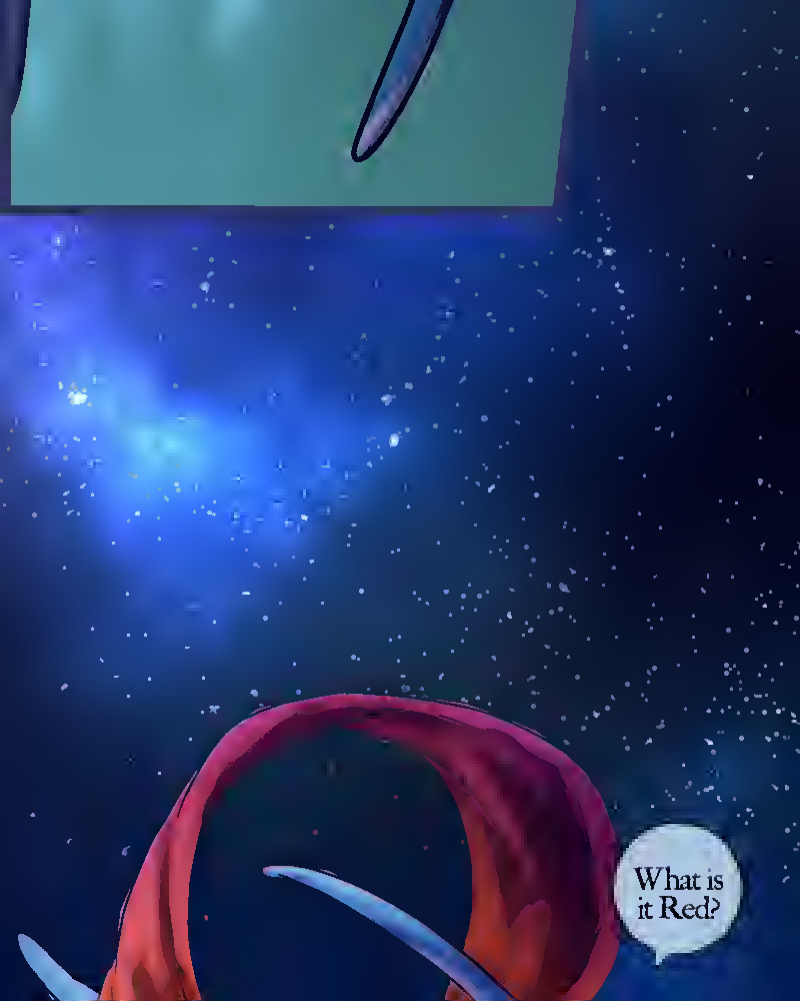
...right Bebo?
Story of my lifetimes.

Ready to paint the town red, Red?



HEH HEH
get it?

HEY!



What is it Red?

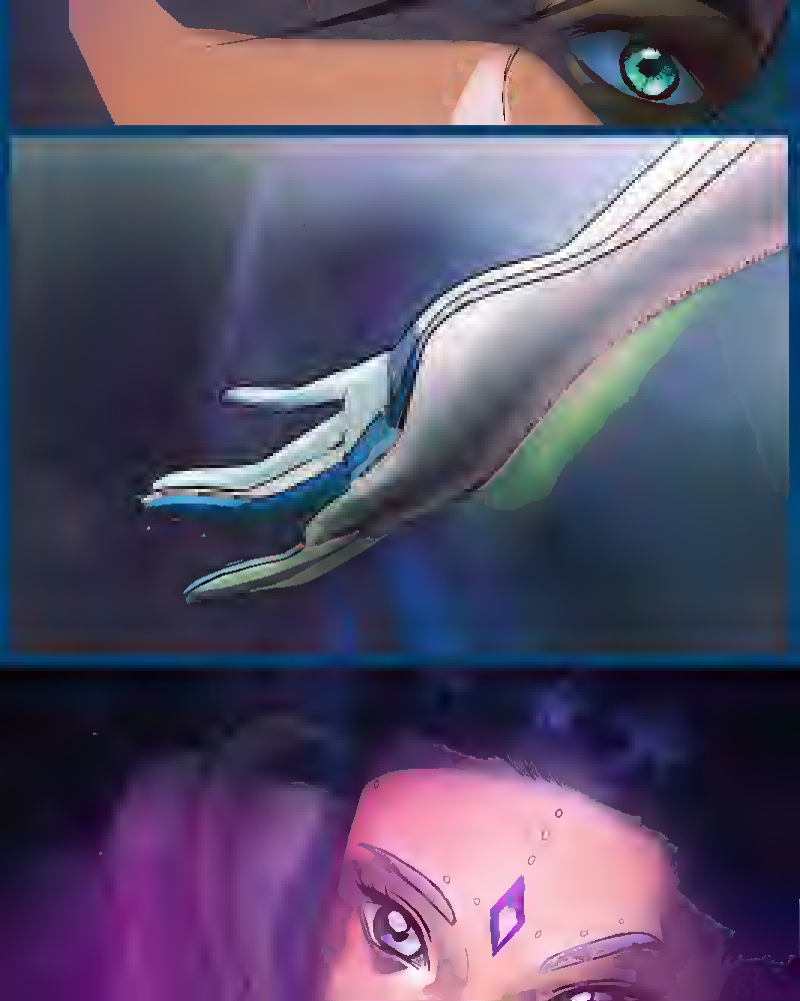
TAP
TAP

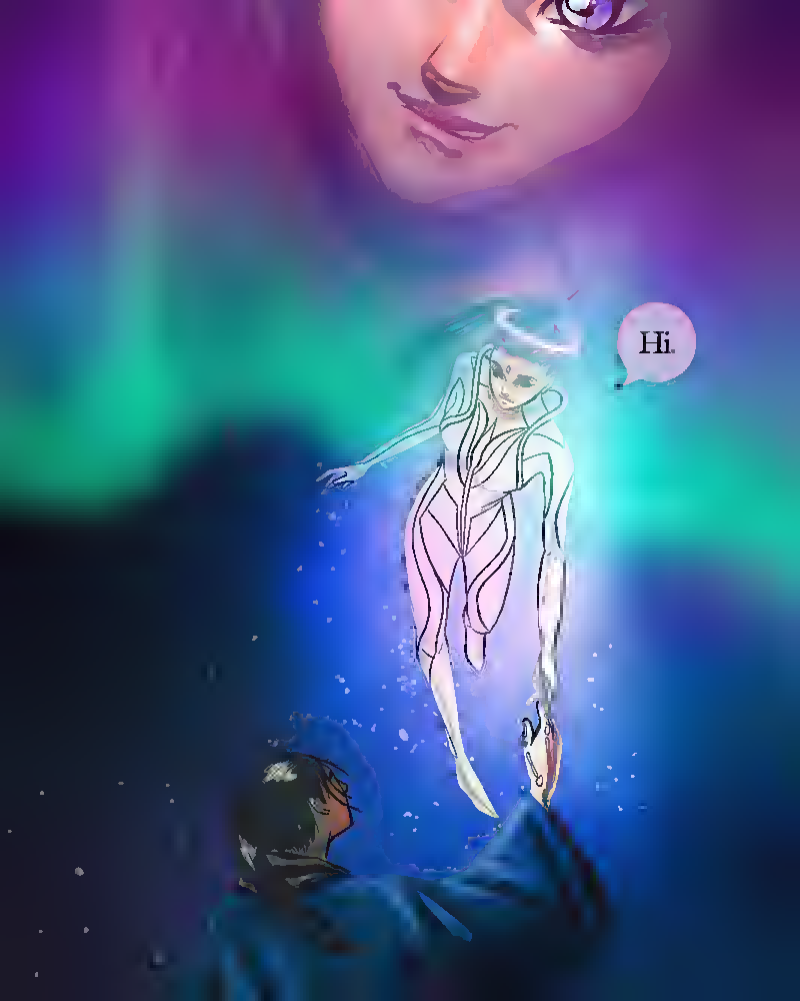
POINTS
Gross, get a room, right?

Hmm?
I should
do *what*?
Oh
Red,

...you
old sap!

This outta *spice* things up, heh?





Hi.

Hello.

VSSSSSHHHHH!!!
I hope you're not afraid of heights.
